Dear Chris,

Don't let your disillusionment run away with you.

The situation is par, usually at least as bad and with the major media; usually worse. From my experience and observations.

Aside from Knight stuff, your papers get the southern regional wire copy. I never see it. If you ever see anything on Ray in those stories (or any others) or anything quoting his former lawyers, I would find it helpful. Recently both Hanes and Foreman have sounded off. If your morgue holds anything, it could be useful.

Another of Ray's former lawyers - and I do not presume this means no continuing connection - was J.B.Stoner. So, anything you may have on him or his NSRP could also be useful.

He managed to waste an extraordinary amount of Ray's legal possibilities.

The only time I ever seen any Knight stories is when I am sent clips from the Philadelphia Inquirer, which is not often.

Best regards,
